INNOVATIONS

HAULOTTE
ON YOUR MOBILE!

MyCOMPANION

MyCompanion helps operators get familiar with the machine ! By simply scanning the QR code affixed on each machine, operators easily access to useful machine information.

HAULOTTE DIAG

Manage your daily machine maintenance easily by accessing parameters & diagnostic tools directly from your mobile.

INNOVATIONS,
OUR MUST HAVES

Haulotte ACTIV' SCREEN

The intelligent interface that **simplifies your day-to-day tasks** and assists technicians manage daily machine maintenance, adjust parameters and perform diagnostics.

Availability of innovations p.44

Haulotte ACTIV' ENERGY MANAGEMENT

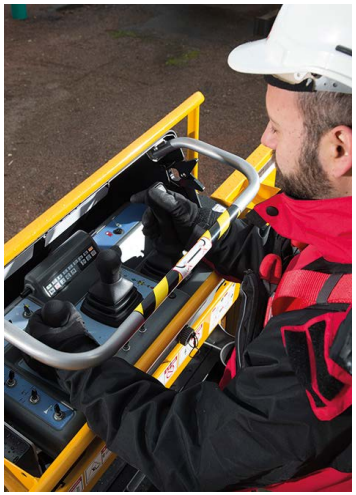

This system optimizes the operation and lifespan of your batteries.

The smart CAN charger perfectly adapts to battery conditions for optimal charging parameters, performing the ideal charging cycle for battery care.

Combined with a centralized, automatic* waterfilling system, **battery replacement and operating costs are significantly reduced.**

*Haulotte Activ'Energy Management offer may vary depending on the machine.

INNOVATIONS,
OUR MUST HAVES

Haulotte ACTIV' SHIELD BAR

Engineered to reduce the risk of overhead crushing injuries, this safety bar is fully integrated into the control panel.

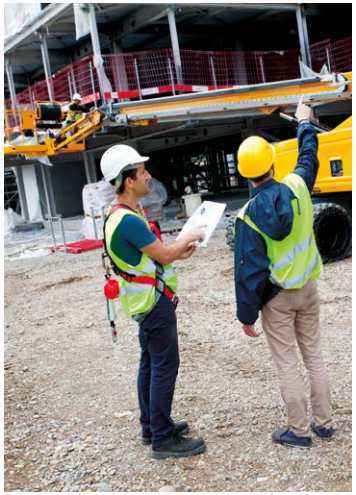

Combining simplicity and robust design, it delivers safe productivity without compromise.

Haulotte ACTIV' LIGHTING SYSTEM

Loading and unloading a machine from a truck is a complicated procedure, especially during limited visibility conditions, for example at dusk or sunset.

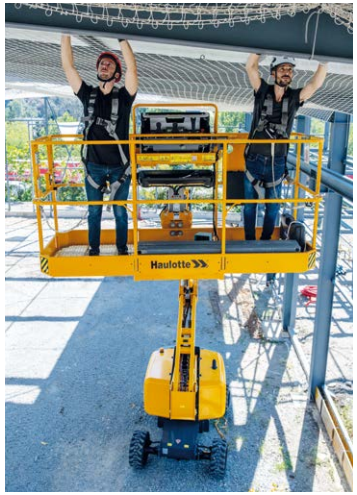

Perfectly integrated, our lighting system illuminates controls and crucial areas around the boom. The operator can safely carry out loading and unloading maneuvers.

Haulotte STOP EMISSION SYSTEM

This system automatically shuts down the engine after a short period of inactivity reducing the use of the engine and peripheral components by up to 20%.

Consumption is reduced as well as pollution emissions and noise while assuring higher residual value.

Haulotte DUAL LOAD

Haulotte EXTRA REACH

Haulotte Dual Load and Extra Reach enhance productivity on construction sites by allowing increased basket capacity.

Dual Load boosts load capacity, while Haulotte Extra Reach offers additional capacity and the ability to operate on slopes up to 6°, addressing various site challenges effectively.

Availability of innovations p.44

INNOVATIONS,
OUR MUST HAVES

FASTN REVOLUTIONIZING SAFETY ON BOOMS

FASTN allows construction companies to improve operator safety by detecting secure lanyard attachment. FASTN is a patented and active system which aims to create an anchorage reflex for booms operators.

- Maximise **harness use** by creating an anchoring reflex.
- Collect **data** for safety management on site.
- **Reduce time** of intervention when an accident occurs.

HARNESS DETECTION

ANTI-BYPASS FUNCTION

POTENTIAL OPERATOR FALL OR EJECTION

OPERATOR UNCONSCIOUS OR MOTIONLESS

Detection box

Control box

FASTN CAN SAVE LIVES AND ANSWERS TO A MAJOR CAUSE OF FATALITIES IN MEWPS

The system consists in a control box and a detection box installed in the basket.

The control box emits audible and visual alerts.

It also records all events to provide valuable safety data. The detection box ensures that the operator is securely connected to the aerial work platform.

A UNIQUE WEB PORTAL
SAVE TIME AND EFFICIENCY

To support you in your business, Haulotte has designed a **web portal that brings together all its services: MyHaulotte.com.**

Whether you are an operator, fleet agent, administrative agent, workshop manager, technical manager or rental agency manager, the MyHaulotte portal gives you **simplified access to resources** dedicated to your lifting equipment.

SIMPLIFY YOUR DAILY LIFE

MyHaulotte is a **single point of entry** to all the Group's services, making **access to information easier**. This **ergonomic and intuitive** portal offers you :

> high value-added services;

> personalized follow-up throughout the lifespan of the machines.

WE HELP YOU MAKE
THE RIGHT DECISIONS AT THE RIGHT TIME

The **SHERPAL telematics solution*** allows rental companies, fleet owners and service managers **access to detailed data on their fleet of machines remotely**. It provides a **consolidated overview of the status of your fleet**, regardless of its size. The collected data is displayed on the MyHaulotte service portal or integrated directly into your own system through an ISO 15143-3 or standard API.

MyHaulotte

Telematics data**

PILOT YOUR FLEET FROM ANYWHERE, IN REAL TIME

INCREASE PRODUCTIVITY
> locate your machines instantly;
> perform remote diagnostics on your fleet;
> optimize your call-outs;
> maximize the availability of your machines.

PROTECT MACHINES AND PERSONNEL
> monitor hazardous behaviour;
> adopt best "energy" practices;
> protect your machines.

DEVELOP YOUR BUSINESS
> detect non-contractual use;
> provision your fleet;
> increase the residual value of your machines.

*Availability may vary according to your location. Contact your subsidiary for more information.
**Coverage varies by country, contact your subsidiary for more information.

SUBSCRIPTIONS SHERPAL by Haulotte

Haulotte EQUIPMENT

Whether it is essential data or a comprehensive fleet management solution, Sherpal has 2 subscription levels to adapt to your operational goals.

WATCH

The WATCH package focuses on providing essential information in real time.

- Equipment location (GPS)
- Fleet activity monitoring (horameter)
- Detail on fault codes and alerts (severity & instructions)
- Automated monitoring on preventive maintenance (service counter)
- Data on unsafe behaviors
- Creation and configuration of personalized reports

PILOT

With PILOT, you benefit from advanced analytics, in-depth energy monitoring, and access control, empowering you to make informed decisions, boost productivity and improve profitability.

- **WATCH** features +
- Recommendations on battery care, health indicators and dedicated dashboard
- Advanced management of machine access & usage (AAM)
- Electric line detection and weather alerts
- Geofencing and timefencing
- Access to detailed reports, as well as the history of alerts and fault codes up to 36 months

PUSH-AROUNDS

The Quick Up range of Push-arounds is adapted for all indoors projects. Light, they work on the most fragile grounds. They are easily transportable manually or can be towed by a trailer or a van. Their non-marking tires and stabilizers with rubber protect the floor surface. With their compact size they can go through doors or fit in lifts. The quick set up can be achieved by one person. Requiring minimal maintenance, they are a good value for money.

VERTICAL **MASTS**

Haulotte EQUIPMENT

Enjoy the agility of the Star range of mast booms. With their compact dimensions, AC motors and straight elevation, they are extremely easy to drive in the tightest spaces both indoors and outdoors on slab surfaces. The platform extension provides additional space. Models equipped with a jib allow work over obstacles and have an exceptional zero tailswing which makes them very easy to maneuver. For stocking work use the dedicated Picking model, equipped with an elevating picking tray.

SCISSOR LIFTS

With their large platforms, scissor lifts have the highest load capacity of all types of work platforms. Up to 4 workers can be lifted to complete the most demanding jobs.The standard platform extensions provide even more workspace and extra reach. With a straight, vertical elevation, they are really simple to use. The high gradeability and tilt capacity of rough terrain scissors enable work on the most challenging terrains with outriggers to provide maximum stability. PULSEO scissors offer you the advantage of emission-free and silent indoor work.

SCISSOR LIFTS

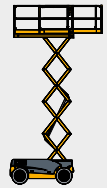

Haulotte EQUIPMENT

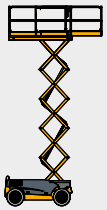

This range of compact scissor lifts is designed for versatility and efficient performance in construction and maintenance applications, particularly in outdoor environments and on uneven or all-terrain surfaces. Each unit features high ground clearance and stabilisers that provide stability on rugged or sloped terrain. With a maximum load capacity of 565 kg and room for up to three operators, these lifts are suitable for a wide range of demanding tasks. The compact design allows for easier access and maneuverability in confined spaces, while maintaining the capability to operate in challenging site conditions.

Haulotte SERVICE

Need help? Haulotte has a number of tools and resources available to you for **quick troubleshooting**.

EFFICIENT DIAGNOSTIC TOOLS

> **Haulotte Diag app:** perform wireless diagnostics on all Haulotte machines equipped with a VCI box.

> **SHERPAL telematics solution:** view machine fault codes and see the actions to be taken to resolve malfunctions.

24/7 ACCESS TO DOCUMENTATION

> **MyHaulotte portal:** easily find all the technical documentation related to the maintenance and repair of Haulotte aerial work platforms. Maintenance manuals, spare parts catalogs, hydraulic and electrical diagrams, video tutorials... The files are available in many languages and updated regularly.

> **MyCompanion:** easy to use, ergonomic upgradeable tool to help operators get familiar with their machine.

> **ETI LITE Library:** by scanning MyCompanion QR Code located on the machines, you can provide users with comprhensive, accurate information about the machine and its environment.

GENUINE SPARE PARTS
IMPROVE YOUR MACHINES' UPTIME

Because we know how important it is to keep your machines in good condition, we are committed to delivering certified original parts **at the right time and the right price**.

GENUINE PREMIUM PARTS FOR OPTIMAL PERFORMANCE

Only genuine Haulotte spare parts are designed to fit your machines perfectly. They are **tested to maximize operator safety** and optimize the residual value and life of your machines.

ORDER YOUR SPARE PARTS WITH 1 CLICK

Thanks to MyHaulotte, you can **check the availability of spare parts in real time**, access the complete list of components and the main maintenance kits, and take advantage of numerous promotions throughout the year. When you buy your spare parts from Haulotte, you are sure to get the **best quality/price ratio**!

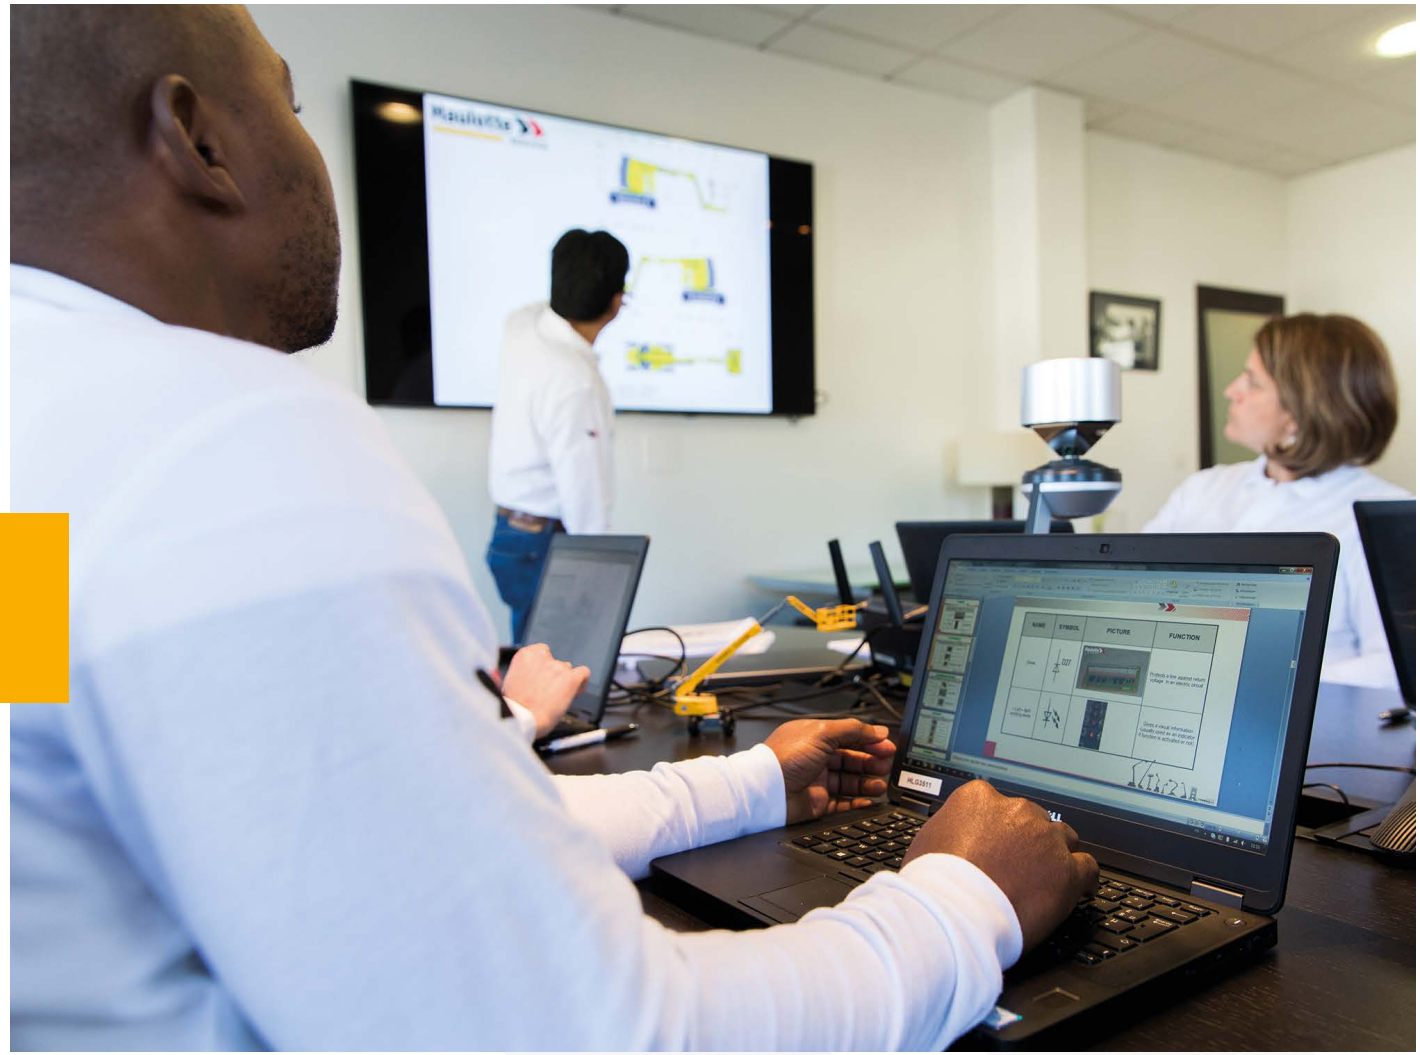

TRAINING

INCREASE THE SKILLS OF YOUR TEAMS

Haulotte Training courses can easily be customized to your needs with a hands-on approach in your own language.

Get your safety codes anywhere, anytime.

You can also monitor the skill set of your staff and plan their advanced training on-line.

SERVICE CONTRACT
STAY FOCUSED ON YOUR BUSINESS

Focus on your core business! **Our Haulotte Service experts take care of the maintenance of your machines**. At any time, you can increase the availability of your fleet and **control your maintenance costs.**

OUR ADDED VALUE: YOUR PEACE OF MIND

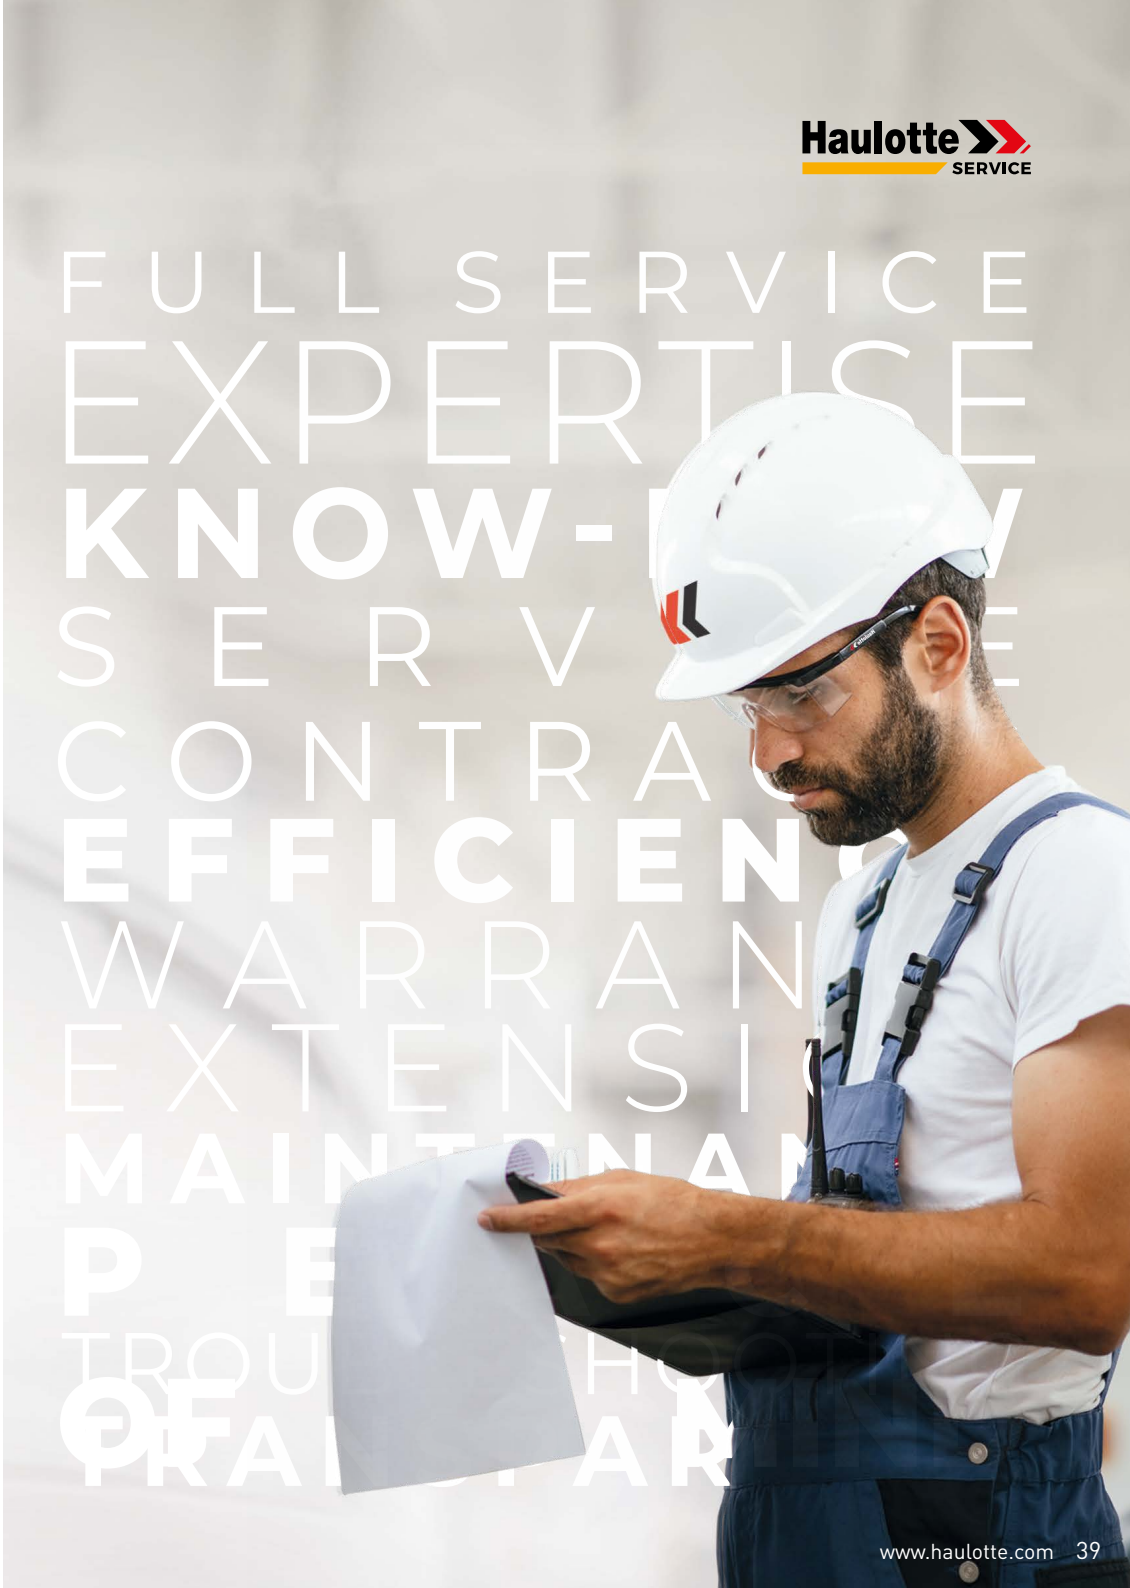

With Haulotte service contracts:

> you no longer need to manage maintenance planning;

> you rely on the trained skills of Haulotte technicians;

> you control your costs over a fixed period of time;

> you **optimize the residual value** of your equipment thanks to Haulotte original parts and know-how.

A CONTRACT **FOR EVERY NEED**

Our service contracts **meet your needs** and your business to bring you maximum satisfaction.

EXTENDED WARRANTY CONTRACT

Extend the manufacturer's warranty for several years for **a better return on investment**! This contract is available for new or used equipment (subject to prior inspection). It includes labor, travel expenses and original parts. No surprises: you control your repair costs and **cover your financial risk between years 3 and 5**.

MAINTENANCE CONTRACT

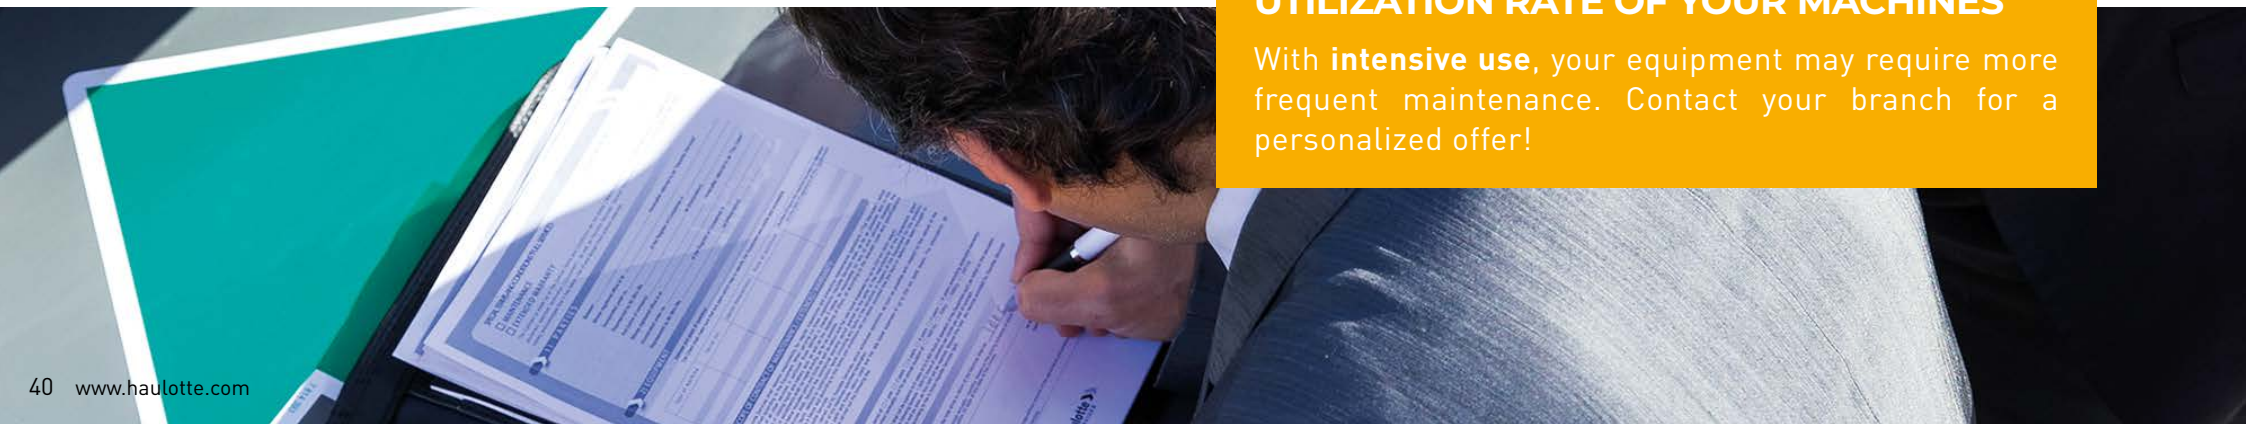

Make it easy on yourself! With this contract, Haulotte's technicians **manage the maintenance of your equipment once a year** according to the maintenance manual (parts and labor included). Proactive, our experts ensure that your equipment is working properly and identify potential problems to **reduce the risk of downtime**.

EXTENDED WARRANTY AND MAINTENANCE

Take advantage of **global service**! This offer helps you **optimize your total cost of ownership**. It combines extended warranty and maintenance contracts at a preferred rate.

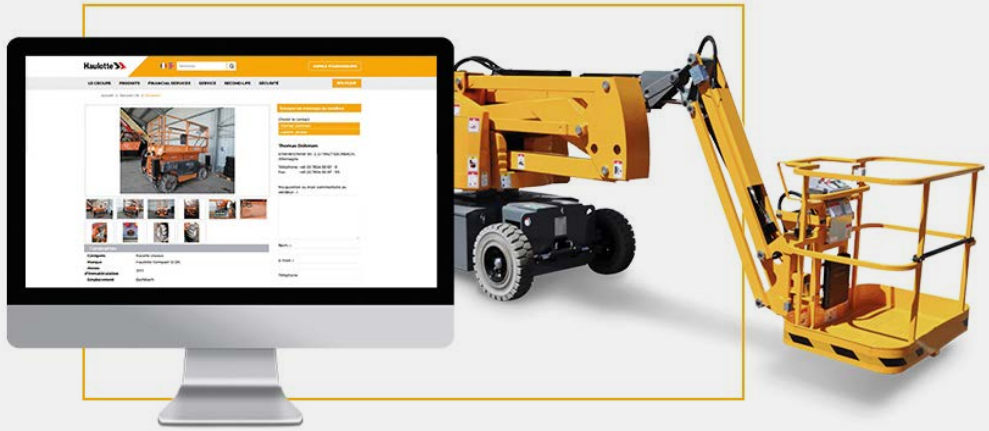

FLEXIBLE SOLUTIONS ACCORDING TO THE UTILIZATION RATE OF YOUR MACHINES

With **intensive use**, your equipment may require more frequent maintenance. Contact your branch for a personalized offer!

THE RIGHT PRE-OWNED EQUIPMENT **AT THE RIGHT PRICE**

Pre-owned equipment is a perfect way to establish or enlarge a fleet at lower cost for a better return on investment. Find your next machine among a wide range of pre-owned equipment, from scissor lifts to telehandlers, as well as articulating booms, vertical masts and more. A quick and easy way to meet your needs and your budget!

HAULOTTE-CERTIFIED **USED MACHINES**

Choose our reconditioning solutions for a quick return on investment!

REFRESH

Remove the marks of time and increase the residual value of your machines! REFRESH operations give them a **real facelift by replacing visible parts**: labels, wheels, paint... Presented in the form of kits, you can do it yourself or call on Haulotte technicians.

REFURB

Optimize your total cost of ownership! With REFURB solutions, our technical experts perform preventive repairs to maintain optimal safety. They **check and replace major mechanical parts**, such as the telescopic boom, welded assemblies, load sensing system, etc.

UPGRADE

Add **new features or technologies** to your equipment! UPGRADE solutions **bring more comfort and safety to operators**. By upgrading your machine, you improve its performance and better meet your customers' expectations.
